GRADUATE DEVELOPMENT PROGRAMME

Our graduate development program is a structured 2 year supportive practical program providing new graduate veterinary surgeons with the skills needed to grow and develop their own careers within our large animal practice.

Year 1:
A structured program to develop all aspects of your clinical work. You will be allocated a personal mentor to provide one to one support and advice, and as a team we will work together to help you complete your RCVS PDP.

Year 2:
Graduates will be enrolled on to the XLVets graduate training program which consists of 56 hours of CPD over 8 days throughout the year, covering all aspects of clinical and professional skills.

WHO WE ARE:
We are an independent 23 vet mixed practice working in conjunction with over 1000 farmers across the East Midlands. This allows a mixed case load of sheep, beef, dairy and camelids. We pride ourselves on our disease prevention planning and work closely with our clients to optimise animal health and maximise productivity and profitability.
We encourage both individual and team development through monthly practice meetings, client education evenings and both on and off-site CPD. We have a number of certificate holders in the practice who are willing to share their knowledge and expertise.
As a member of the XLVets community we work together with other practices, sharing ideas and learning new skills.

ARE YOU THE RIGHT CANDIDATE?
We are looking for forward thinking, self-motivated individuals to join our team. In return we offer:

- A competitive salary
- Paid RCVS fees
- 28 days paid holiday
- Company pension scheme
- Company vehicle

- Full VDS cover
- Staff discount scheme
- Generous CPD allowance
- Bonus scheme
- 4 and a half day week
